

Grass Waterway Construction To Be Demonstrated

A grass waterway demonstration will be held at 9 a. m. Wednesday at the Ray Power farm, one and one-half miles west of Mokena in New Lenox township, according to Wayne Churchill, Will county farm adviser.

A motor grader will give waterways the desired shape before seeding. Approximately 125 acres of the Powers farm is now being cultivated on the contour.

Art Kelley, farm conservation planner, will be on hand to explain property waterway design, seed mixtures and fertilizing. Any-one interested is incited to attend the demonstration.
